**DETAILED ACTION**

***Response to Amendment***

Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

In view of the Appeal Brief filed on 01/23/2006, PROSECUTION IS HEREBY REOPENED. New grounds of rejection are set forth below.

To avoid abandonment of the application, appellant must exercise one of the following two options:

(1) file a reply under 37 CFR 1.111 (if this Office action is non-final) or a reply under 37 CFR 1.113 (if this Office action is final); or,

(2) initiate a new appeal by filing a notice of appeal under 37 CFR 41.31 followed by an appeal brief under 37 CFR 41.37. The previously paid notice of appeal fee and appeal brief fee can be applied to the new appeal. If, however, the appeal fees set forth in 37 CFR 41.20 have been increased since they were previously paid, then appellant must pay the difference between the increased fees and the amount previously paid.

A Supervisory Patent Examiner (SPE) has approved of reopening prosecution by signing below:

***Response to Arguments***

Applicant's arguments, see Appeal Brief, filed 01/23/2006, with respect to claims 31 and 36 have been fully considered and are persuasive. The rejections of claims 31 and 36 have been withdrawn.

***Allowable Subject Matter***

Claims 31-39 are allowed.

The following is an examiner's statement of reasons for allowance: claims 31-39 are allowed because the references cited fail to teach, as applicant has, subtracting the ideal upper layer in-phase signal from the layered in-phase signal to produce the lower layer in-phase signal and subtracting the ideal upper layer quadrature signal from the layered quadrature signal to produce the lower layer quadrature signal; converting the lower layer in-phase signal and the lower layer quadrature signal to a lower layer in-phase analog signal and a lower layer quadrature analog signal; and modulating the lower layer in-phase analog signal and the lower layer quadrature analog signal to produce a single layer signal, as the applicant has claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Juan A. Torres whose telephone number is (571) 272-3119. The examiner can normally be reached on Monday-Friday 9:00 AM - 5:00 PM.
